

Erasmus Mundus Master in Theoretical Chemistry and Computational Modelling

Starting from the academic year 2010-2011, KUL offers a new international master programme on theoretical chemistry and computational modelling (TCCM). This programme is open to Bachelors of Chemistry, Physics, or Material Science.

Programme website:

http://www.kuleuven.be/onderwijs/aanbodprev/opleidingen/E/SC_51186236.htm

The TCCM programme is an Erasmus Mundus Master, and is organised by the universities of Madrid, Porto, Perugia, Valencia, Toulouse, Groningen, and KULeuven.

Students from the EU can apply for an Erasmus Mundus scholarship, which covers the tuition fees of the Master and the insurance for the two years of the Master, as well as a fixed amount of 4000 € for installation and a monthly allowance of 500 €

Detailed information about the Master and who can apply and how to apply can be found in the web page of the Master: www.emtccm.org

The deadline for application is April 25, 2010
